---

The Tried and Proven Strawberries. There are no better varieties for general and universal use for the Northern grower of strawberries. (We do not recommend the Dunlap South of Mason and Dixon line, but we do the Lady Corneille both North and South.)

Notwithstanding the severe dry and hot May, June and July of last growing season, the Lady Corneille and Dunlap made a solid mass of plants, where other varieties burnt out or made only half a crop of plants. When we started digging these two varieties, we found that they had made such a lot of fine plants that we are quoting these two varieties only at the following prices :

1,000 to 5,000	.	\$3.50 per M
5,000 to 10,000	.	3.25 per M
10,000 or more	.	3.00 per M

Write us for prices on lots of 25,000 or more.

Order number of plants wanted on back of this sheet ; attach to order blank enclosed and mail with your remittance to-day.

NOTE—No order of less than 500 plants accepted at above prices.
